

WITS TIPS

SIMPLE MONTHLY INSIGHTS TO HELP INSPIRE YOUR READING SESSIONS.

BUILDING TRUST

When starting your new mentoring relationship or even when reacquainting after a summer break, it is important to focus on building trust and connecting with your student right away.

1. Take time to get to know your students by asking some simple questions regarding their family, hobbies, etc. and feel free to share information about yourself as well.
2. Listen to your child. They thrive on having someone appreciate them and their developing skills.
3. Always remember to tell your child how proud you are of his/her efforts or skills.
